DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 and 6-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over O'Hanlon et al. (3,826,106). O'Hanlon discloses storage area (1) with a buffering space (4-5) containing a dehumidification system, (7, 12, 15) which remove the moisture for the air before it enters the storage area. Hence, it would have been obvious to one of ordinary skill in the art at the time of the invention, to have applied the teachings of the invention disclosed by O'Hanlon to have provided the buffering means for the purpose of effectively dehumidifying the air.

Allowable Subject Matter

3. Claims 4-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
